

MOREHOUSE

COLLEGE

Background

Morehouse College is the nations' largest private, independent, liberal arts, historically Black college for men. Founded in 1867, the College enrolls approximately 3,000 students and confers bachelor's degrees on more black men than any other institution in the world. The College offers 26 majors in three academic divisions: Humanities and Social Sciences, Science and Mathematics, and Business and Economics. Ranked the number one college in the nation for educating African American students and recognized by The Wall Street Journal as one of the top feeder schools for the 15 most prominent graduate and professional schools in the country. Morehouse is located on an historic campus of 32 acres, 5 minutes west of downtown Atlanta. The College is part of the Atlanta University Center, the largest consortium of historically Black colleges in the world. Its six partner institutions include Spelman College, Clark Atlanta University, the Interdenominational Theological Center, Morehouse College, Morehouse School of Medicine and Morris Brown College.

The Entrepreneurship Center

In an effort to expand its entrepreneurship program, Morehouse College established the Entrepreneurship Center (EC) under the division of business and economics. The mission of the Morehouse College Entrepreneurship Center is to assist in the development of minority entrepreneurship through formal and informal training, scholarly research, consultative services and undergraduate case study competition. We meet the needs of entrepreneurial enterprises for improved operational tools and competencies that qualify them to function in the global marketplace and improve their competitive position. Our market focus is minority businesses, major corporations and government agencies. In fulfilling this mission, the EC is a recognized premier center for the advancement of minority entrepreneurship consistent with the pattern and reputation of Morehouse College and its legacy of creating leaders.

Entrepreneurial Initiatives
